

Editing Your Web Page

Your personal page is meant to be used for small projects only and is **NOT** meant to create a full-blown web site.

If you wish to have more control over a personal web site you can ask the school board to give to access to a personal folder on their web server, or you can Google "free web pages". There are many excellent services available. You could also use one of the many blogs. If you choose to use one of these, or any other method of creating web content, a link can be provided to your page. The link **MUST be approved by the Principal** and you **MUST** make sure that your site does **NOT** contain, or have links to **INAPPROPRIATE** content. You will be held solely responsible for any inappropriate content or links.

You can use {P1}, {P2}, etc and/or {D1}, {D2}, etc. to add a link to photos and documents you have uploaded. This will **ONLY** work on your home page. This will **NOT** work on pages 1 to 10.

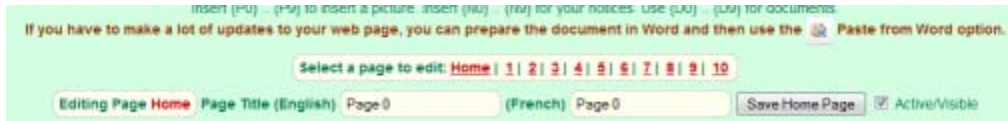

You can link to other documents and add other images to you web page(s); see the **Photos** and **PDF Files** help pages for more instructions.

If you have updated your **main** web page in the past 30 days a different symbol will appear beside your name on the staff lists. Editing a numbered page will **NOT** cause this symbol to appear.

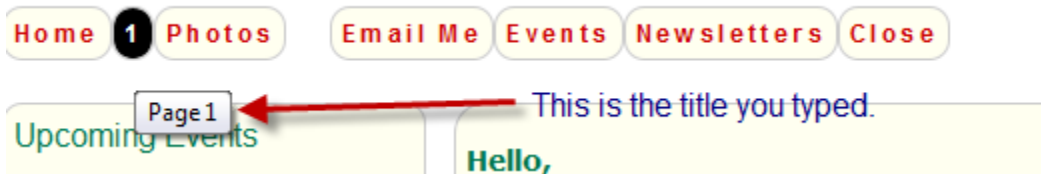

This is the symbol that will appear if your personal web page had not changed in the past 30 days.

You can have up to 9 pages on your web site by entering a number between the limits indicated. Then just click anywhere else on the page to create the new page.

You should enter a page title- it will appear when a viewer hovers their mouse over the numbered tab.

Editing a numbered page will NOT cause the symbol on staff lists to change.

Your web page will have a banner of random photos at the top.

The screenshot shows a website for Lake of Two Mountains High School. At the top, there is a banner with the school's name and a photo of a group of people on a field. Below the banner are navigation links: "Email Me", "Calendar", "Newsletters", and "Close". On the left side, there is a "My Pages" section with links to "Home", "Media Club", "Promo Festival", "Planning Sec. 3", "Planning Sec. 4&5", and "Leonardo Da Vinci". Below that is a "Photo Albums" section with a link to "Leonardo". Further down is a "Upcoming Events | Weather" section with a link to "Oct-22: POWER and TITANS Fundraiser". At the bottom of the left sidebar is a "Latest News" section with links to "Football Pictures from Litchfield", "First Football Game 2010-11 Agenda", "August 19 - Football Practice", and "Latest Newsletters". The main content area features a header with the text "Multimedia Where art and science meet" and a quote: "Multimedia 'The medium is the message' dixit: Marshall McLuhan". Below this is a contact email: "Students & parents can contact me any time by e-mail: rsavoie@swlauriersb.qc.ca". A note states: "Note: remediation periods are on day 5 & 8 from 12:20 to 12:50." The section then lists "Here are the competencies of the program:" followed by two competency sections: "Competency 1: Creates personal images." and "Competency 2: Creates media images." Each competency section lists specific VIS (Visual Arts) standards.

Multimedia
Where art and science meet

Multimedia "The medium is the message" dixit: Marshall McLuhan

Students & parents can contact me any time by e-mail: rsavoie@swlauriersb.qc.ca

Note: remediation periods are on day 5 & 8 from 12:20 to 12:50.

Here are the competencies of the program:

Competency 1: Creates personal images.

VIS 1.1: Uses ideas to create an art work.
VIS 1.2: Uses transforming gestures and elements of arts language.
VIS 1.3: Organizes his/her arts production.
VIS 1.4: Shares his/her experience of arts creation.

Competency 2: Creates media images

VIS 2.1: Uses ideas to create a media production.
VIS 2.2: Uses transforming gestures and elements of arts language.
VIS 2.3: Organizes her/his media production.

It will also have a collage of random images at the bottom.

If you have uploaded photos AND created albums, the album names will be listed instead of the Latest News.

Hello,

I'm the webmaster.

I hope you find this site helpful.

If you have any comments or suggestions for this web site just click on [Contact Webmaster](#) at the bottom of this page.

Photos and captions can be customized easily when you upload photos to your page. When you hover the mouse over a photo a small icon will appear in the top left corner; clicking this icon will load a large version of the image.

 Chrysanthemum	 Tulips	 Tulips
--	--	---

Clicking on an album will display the photos in that album as a slides show.

If you only have albums the Photos link will not appear on the menu.
